

INCOME MAXIMIZER

The Income Maximizer is designed to help you as a distributor earn extra cash with each step you take on the road to growing your team and your long-term residual income.

You are allowed to participate in the Income Maximizer each month, as long as you are not an Emerald Managing Director rank or above and you meet the qualification criteria. Each month that you complete a level in the Income Maximizer you will get a \$50-\$1,500 USD bonus in your monthly paycheck.

The Income Maximizer is an alternative to the comp plan, NOT an addition to the comp plan. Each month, distributors will be paid either the Maximizer amount or the comp plan commission, whichever is GREATER. You build your business, and we make sure you get paid the most for your work.
